IMX307

Apex Series

Spark Series area scan cameras are the perfect choice for machine vision applications demanding high quality images with the highest possible throughput. They feature the latest CMOS imagers delivering high resolution images at speeds as much as 10 times faster than traditional CCD cameras.

For example, 45-megapixel (MP) models can deliver over 50 fps output while some 5-MP models run at 250 fps or more. Using the region-of-interest (ROI) feature, even higher frame rates can be achieved.

Specification Highlights

SENSOR: IMX307

Monochrome camera with USB3 Vision

Color camera with USB3 Vision

Product Highlights

- High resolution 12-megapixel CMOS imager (global shutter)
- 23.4 fps at full resolution
- 3.45 µm square pixels
- User selectable ROI and multi-ROI functions
- Horizontal and vertical binning (monochrome model) for increased sensitivity
- Color model provides raw Bayer output or 5x5 in-camera color interpolation
- Edge enhancement function
- Color enhancer and RGB/HSI/XYZ color space conversion functions on color model
- Excellent shock and vibration resistance
- 8/10/12-bit* output over USB3 Vision interface
- C-mount lens mount
