# Ring Light EZ MOUNT **R130**

The R130 is an all-around durable light. The 10%-100% intensity limit control gives users full control over light output. A standard 42 mm inner hole diameter allows for use with nearly all camera systems with available step-up and step-down conversion kit adapters.

## R130 HIGHLIGHTS

Warranty **IEC** 10 **YEAR** 

IP 50

5-PIN M12

- Compact aluminum housing
- ✓ Built-in status indicators
- ✓ Built-in potentiometer
- ✓ T-slots for easy mounting

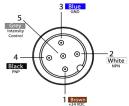

# **SPECIFICATIONS**

Electrical Input	24 VDC +/- 5%	
Input Current	Max. 500 mA	
Input Power	Max. 12 W	
PNP Trigger	2.8 mA @ 4VDC   8.8 mA @ 12VDC   17.6 mA @ 24VDC	
NPN Trigger	14.4 mA @ Common (0VDC)	
Trigger Input	PNP > +4 VDC (24 VDC max.) to activate <u>or</u> NPN ≥ GND <1VDC to activate (not both)	
Strobe Duration	Min. 30 μs   Max. ∞	
Strobe Trigger Latency	10 μs	
Power Indicator	Turns green when powered up	
Status Indicators	Strobe indicator will turn yellow when on	
Intensity Limit	270° turn-pot. Turn clockwise to increase intensity limit.	
Analog Intensity	The output is adjustable from 10% - 100% of intensity limit by a 1 - 10 VDC signal.  Jumpering pin 5 to pin 1 will provide maximum intensity	
Connection	5-pin M12 connector	
Operating Temperature	-10° to 40° C (14° to 104° F)   RH max 80% non-condensing humidity	
Storage Temperature	-20° to 70° C (-4° to 158° F)   RH max 80% non-condensing humidity	
IP Rating	IP50	
Weight	~0.7 lbs   ~325 g	
Compliances	CE, IEC 62471, RoHS	
Warranty	10 years¹	

<sup>&</sup>lt;sup>1</sup>See SmartVisionLights.com/warranty for details

# WIRING CONFIGURATION

### **CONTINUOUS OPERATION MODE**

	124100		
Pin layout for li	aht (Male C	onnector)	

Pins	Function	Signal	Wire Color
1	Power In	+24VDC	BROWN
2	NPN	Sinking Signal	WHITE
3	GND	Ground	BLUE
4	PNP	Sourcing Signal	BLACK
5	Intensity Control	1-10VDC	GREY*

For proper light function, apply either a PNP or NPN signal, not both.

Failure to supply light with correct input current will result in inconsistent lighting behavior.

(see Product Specifications for requirements)

For maximum intensity, tie pin 5 to pin 1 at +24VDC.

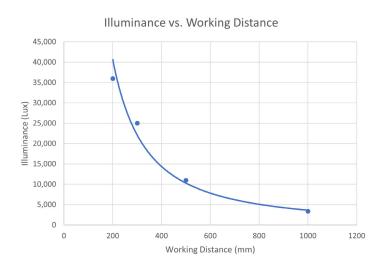

For continuous mode: PNP (pin 4) can be tied to +24 V DC (pin 1) or NPN (pin 2) can be tied to Ground (pin 3).

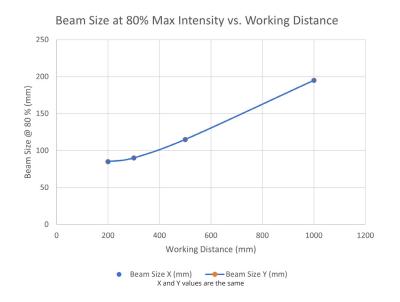

## LIGHTING PATTERNS

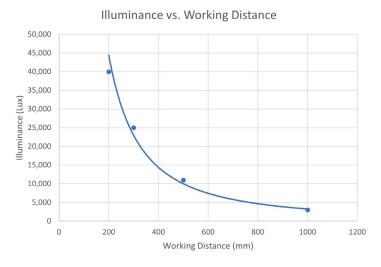

The R130 is recommended to be used at a working distance between 200 mm to 1000 mm. **Illuminance values taken on white light - 5700K** 

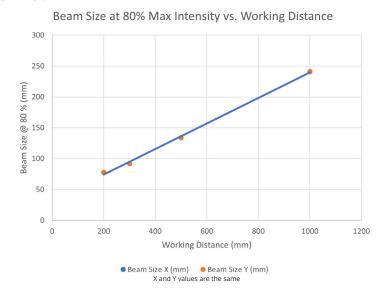

### Narrow (14°) lighting patterns

### Standard (30°) lighting patterns

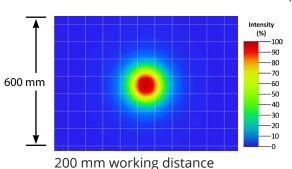

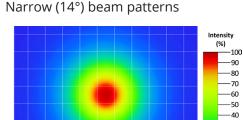

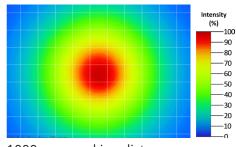

### **BEAM PATTERNS**

The R130 is recommended to be used at a working distance between 200 mm to 1000 mm. **Illuminance values taken on white light - 5700K** 

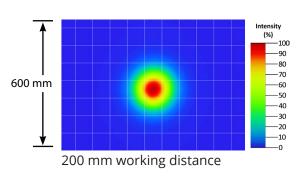

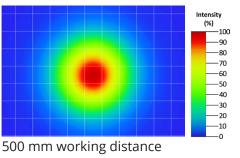

500 mm working distance

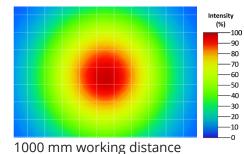

1000 mm working distance

-20

## **LENS OPTICS**

#### NARROW

Narrow, 14° angle-cone lenses project a narrow beam of illumination and are used for long working distances.

### WIDE (STANDARD)

Wide, 30° angle-cone lenses are standard. They project a large area of illumination. They create a floodlight effect, can be used for short working distances.

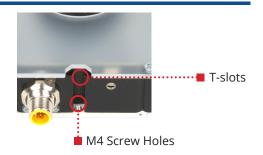

## **MOUNTING**

Mounting options on the R130 EZ Mount Ring Light include six T-slots and six M4 threaded holes.

### **Optional Mounting Hardware:**

T-slots = M5 x 0.8 mm T-nut Threaded screw holes = M4 screws

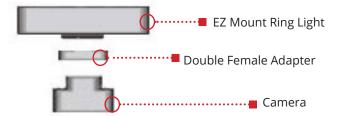

### **CAMERA MOUNTING ADAPTERS**

When mounting a camera directly on to an EZ Mount Ring Light, a Double Female (DF) threaded camera adapter is used.

See page 7 for ordering information.

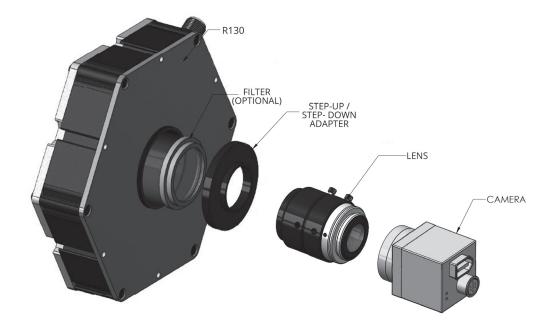

### STEP-UP / STEP-DOWN ADAPTERS

Step-Up/Step-Down Adapter Kits allow the M46 thread on ring lights to be mounted directly to the threads found on the front-end of most popular lenses.

Step-Up Adapters allow for mounting a lens that is smaller in diameter to an EZ Mount Ring Light, while Step-Down Adapters allow for mounting a larger lens to an EZ Mount Ring Light.

These kits include: a set of screws and a hex wrench.

See page 7 for ordering information.

### **EYE SAFETY**

According to IEC 62471: 2006. Full documentation available upon request with purchase of product.

#### **Notice**

**Exempt Group:** No photobiological hazard to eyes or skin even for continuous, unrestricted use. Applicable for wavelengths 625, 850, and 940.

#### Caution

**Risk Group 1:** Possibly hazardous optical radiation emitted from this product. Do not stare at operating lamp. May be harmful to eyes. Safe for most applications except prolonged exposure. Applicable for wavelengths 470, 505, 530, and WHI.

#### Caution

**Risk Group 2:** UV emitted from this product. Eye or skin irritation may result from exposure. Use appropriate shielding. Applicable for wavelengths 365 and 395.

### **ILLUMINATION**

The R130 works best for:

Radial

## **SAFESTROBE™**

SafeStrobe™ is a unique technology that applies safe working parameters to ensure high current LEDs are not damaged by driving them beyond their limits, such as maximum strobe time or duty cycle. This is especially beneficial for overdriving our high current LEDs.

### PART NUMBER GUIDE

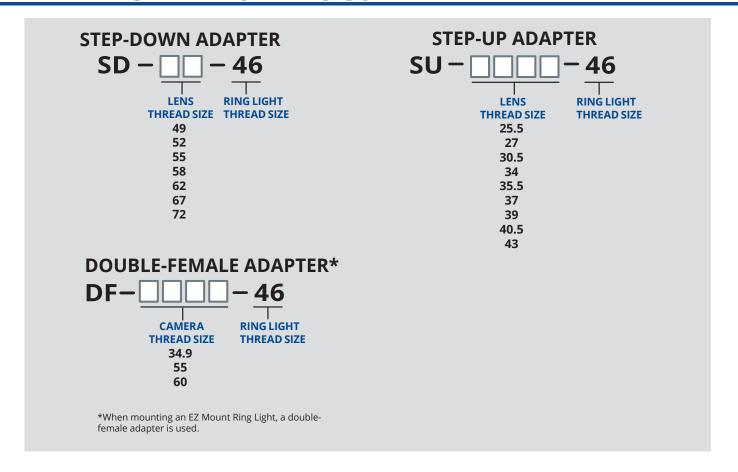

### **Part Number Examples:**

R130-625 R130, 625 Red Wavelength, Standard (Wide) Lens R130-WHI R130, White, Standard (Wide) Lens

## **ADAPTER KITS PART NUMBERS GUIDE**

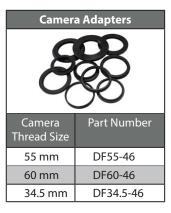

## **ACCESSORIES**

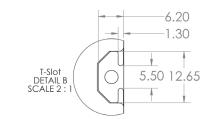

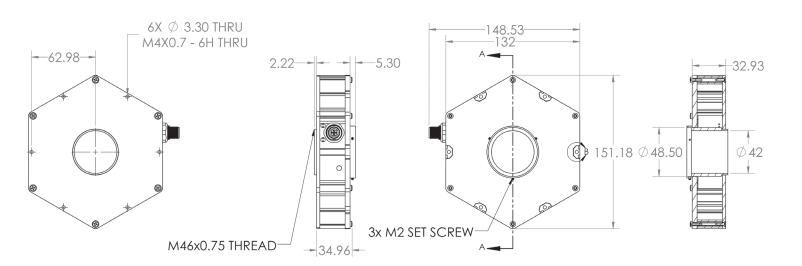

<sup>\*</sup>For lights with lenses, running in continuous operation while using a linear polarizer with certain wavelengths (e.g., white, blue) may burn the polarizer. Incorrect usage of the polarizer is not covered by warranty.

## **PRODUCT DRAWINGS**

CAD files are available on our website. Drawings are in mm.

## **GLOSSARY**

This glossary covers all Smart Vision Lights product families; some content in this section may not apply to this specific light.

### **TERMINOLOGY**

**Continuous Operation** The light stays on continuously.

OverDrive™ Integrated driver that produces a high-current strobe to the LEDs to drive them beyond their nominal continuous operation output.

Multi-Drive™ Integrated driver that combines continuous operation and OverDrive™ strobe mode

NanoDrive™ Integrated driver that provides fast switching where the light can go from off to on in less than 500 ns.

Built-in Driver The driver contained within the light that controls the current to the LEDs and provides PNP, NPN, and analog dimming controls.

SmartVisionLink™ Integrated feature that enables lighting control through the Bluetooth module and app.

Camera to Light Connect the light directly to the camera, without the need for additional controllers or equipment.

**Polarizers** Filters that reduce reflections on specular surfaces.

**Diffusers** Widens the angle of emission by scattering light in all directions.

Pattern Area Lighting Modulated lighting pattern placed over a backlight's surface used to enhance defect detection on transparent and glossy surfaces

**SafeStrobe** Limiter to keep the light in safe working parameters.

**Direct Connect** Connect lights in a series without the use of cables.

Daisy-Chain Connect lights in a series with the use of cables.

### **COMMON COLOR / WAVELENGTHS LEGEND**

Wavelength options range from 365 nm to 1650 nm.\* Additional wavelengths available for many light families.

\*See Part Number section for this light's available standard wavelengths.

Shortwave Infrared LEDs are available in 1050 nm, 1200 nm, 1300 nm, 1450 nm, 1550 nm, and 1650 nm.\*

\*Check Part Number section to see if **this light** is available in SWIR wavelengths.
